

Open Burn - No Municipal Address

When applying for a permit on a lot with no municipal address:

If choosing the Open Burn option, which allows for the applicant to apply for burn permits for up to 5 pieces of property, the applicant will enter the home (municipal) address into the section labelled as Open Burn Address 1. The applicant will then enter the information for the empty lot (lot with no address) into the section labelled as Open Burn Address 2. This information will be entered as: Lot E and the name of the main road closest to the property. For example: Lot E Range Road 275. Use the same postal code as used for the home address. Once this section is completed, continue to the next page of the application – Address Confirmation.

Corporate/Government If burning on corporate or crown land please add contact information

On-site Contact (if applying on behalf of agency)	On-site Contact Phone Number
---	------------------------------

Open Burn Address 1 + Add

Address Line 1 38106 Range Road 275	State / Province AB
Address Line 2	Postal Code T4S 2L9
City Red Deer County	Quarter-Section-Township-Range-Meridian

Open Burn Address 2 Delete

Address Line 1 Lot E Range Road 275	State / Province AB
Address Line 2	Postal Code T4S 2L9
City Red Deer County	Quarter-Section-Township-Range-Meridian

Projected Start Time for Burning Burning is not permitted once permit is expired

Start Time of Burn (24 Hour Clock) 1300
--

Materials to be Burned Only Burn Materials not on the Prohibited List

List of Materials to be Burned Leaves and tree prunings
--

At Address Confirmation, there will be two indicators that can be moved around (one for each address/property). The red indicator will represent the home property (address listed in Open Burn Address 1) and the green indicator will represent the lot with no address (Open Burn Address 2). The green indicator will not be located directly on the property – so will need to be moved to the correct location by clicking on it and dragging it. Once the green indicator has been moved to the location of the burn – continue to the next step.

Confirm Your Location

Please ensure the marker on the map below indicates the correct location for your property. You may use the + and - buttons to zoom in and out, and click-and-drag the marker to place it in the correct location.

The image shows a satellite map interface from Google Maps. The map displays a rural area with roads, fields, and buildings. A red location pin is placed on a building labeled 'CrossRoads Church' at the intersection of Range Rd 275 and Ship Rd 381. A green location pin is placed on a road labeled 'Range Rd 275' near the intersection with Highway 2. The map includes standard Google Maps controls: a 'Map' and 'Satellite' toggle, a full-screen button, a person icon, and zoom in (+) and zoom out (-) buttons. At the bottom of the map, there is a legend with two entries: a red pin icon next to the text '38106 Range Road 275' and a green pin icon next to the text 'Lot E Range Road 275'. The Google logo is visible in the bottom left corner of the map area.

Once the application is complete, both pieces of property will be listed on the permit. When activating the permit once ready to start burning – which can be done online (see how to instructions on website) or by using the automated call in system (activation number listed at the top of the permit) – the system will prompt the permit holder to select the location where the burn is taking place. Select the location of the burn.
